From country 3 [Romania]:	31		
From country 4 [Italy]:	242		
Total number of participants:	298	From total number of countries:	4
Description *Provide a short description of the event and its activities.*			
The educational activities of Work Package 3 (WP3) took place across all four consortium partner countries (Italy, France, Romania, and Belgium) between September and November 2026.			

The primary aim of these sessions was to foster democratic participation and civic engagement among young people, with a specific focus on those facing greater obstacles in accessing public opportunities or engaging in dialogue with institutions. The activities revolved around four key objectives:

Practical Evaluation: Assessing the playability, team dynamics, and overall accessibility of the card game in real-world settings.

Pedagogical Potential: Leveraging game-based learning to highlight and discuss barriers to civic participation (economic, socio-cultural, administrative, or communicative) while raising awareness of available participatory tools.

Participant Feedback: Gathering and analyzing direct feedback from young people regarding the relevance, enjoyment, and usefulness of the experience.

Methodological Documentation: Documenting the professional observations of facilitators and project partners to formulate flexible facilitation guidelines and strategies for future use in both formal and non-formal educational settings.

ENAIP Piemonte ETS served as the lead partner for WP3 activities. In this role, it provided guidelines and reporting tools for the rollout of activities with young people and coordinated workshops undertaken by the participating project partners: LVIA, CRPE, Pistes Solidaires, and TGL Belgium.

In total, 18 workshops were conducted using the Deliverable 3.1 / Educational Toolkit: "Smash the barrier!".

Geographical Distribution of Workshops:

Italy: 14 sessions

France: 2 sessions

Romania: 1 session

Belgium: 1 session

Session Duration & Attendance:

Average Duration: 1.5 hours per session

Average Attendance: 12 participants per session

Youth participants' feedback was collected at the end of each session using a multilingual Google Form questionnaire. Additionally, each partner completed a brief report to allow for a detailed analysis of the youth groups involved in the activities.
